

## Leisure & Hotels

Portland have experience in this sector, working on numerous projects ranging from the Bannatyne Hotel, Durham to a golf Clubhouse.

### Bannatyne Hotel, Durham

45 bed hotel on a stiff reinforced concrete raft due to the difficult ground conditions. The superstructure is from light gauge metal framing.

### George Washington Hotel Golf Clubhouse, Washington

Facility including lounge bar, golf shop, locker and changing facilities. A challenging scheme due to the need for the hotel to remain in operation.
