Reclamation & Restoration

Below is a selection of projects that Portland have been involved in within the the Reclamation and Restoration sectors.

Alston Arches, Haltwhistle

The restoration of the grade 2 listed viaduct on the disused Haltwhistle to Alston Railway. Live willow retaining walls were used and linear drains mimicked the position of the rails.

Loadman Street, Newcastle

1st stage of the development of the 2.1ha site consisting of reclamation and reprofiling of the site ready for construction of housing to the top plateau and light industrial to the central and lower plateaus. Includes $\frac{1}{2}$ km of 'timbercrib' walls.

St Mary's Hospital, Stannington

Scheme comprising the redevelopment of the grade 2 listed former hospital and surrounding 41ha site to provide 40 townhouses and an additional 110 new build houses.
