

School & Education

To date Portland have completed 18 education projects. Our two most recent projects are Dame Allan's Primary School, Goathland School at Longbenton and an extension to Lobley Hill School.

Dame Allan's Primary School

New building with high sustainability aspirations and aims to achieve BREEAM Excellent. On completion will feature photovoltaic panels, solar water heating and ground source heat pumps.

Goathland School at Longbenton Campus

Portland were approached by a fabricator to perform a feasibility and value engineering exercise on an existing design. We were then asked to perform a redesign, the result of which was a saving of 80t of steel.
